

This is in regards to the LPFM stations taking precedence over nation wide stations, specifically K-LOVE. I have been listening to this station for a couple of years now and have found no better station for positive, safe listening. There are no such stations where I live. If this station were to be removed, there are many people who would be forced to listen to "public" radio that does not have safe music or language that my children can also listen to. It would be a very negative, un-Christian thing to do. This county is becoming more and more negative, violent, profane, and unsafe for our kids and for ourselves as adults. To be influenced all day by sarcasm, negativity, profanity, de-moralizing music and advertising really hurts our character and diminishes the little bit of good left in the world. Please do not let K-LOVE be taken off the air. Thousands of people support this station financially so that no advertising is needed. That speaks volumes about the impact of this station. Do not take away one of the very few methods we have today of sharing God's love and saving lives. If you remove K-LOVE from the air, you are simply a pawn being used by Satan to hinder the sharing of God's word. While initially you may think that sounds crazy, I pray that you will think about it seriously and consider the effects removing this station will have.
